

Activa Superb

- Microfiber mop for dry, damp and wet cleaning
- Looped with cut wreath
- Built with several layers

Activa Superb is a Nordic Swan Ecolabelled microfiber mop for dry, damp and wet cleaning. The mop effectively cleans both in normally soiled environments, but also where tougher touches are required.

Activa Superb is built with 4 layers. It has short loops, a cropped wreath and a soft velcro back. The yarn wreath is an efficient dust collector and picks up dirt all over the width. Activa Superb has a built-in microfiber cloth for high absorption, which means that the mop retains moisture for a long time.

Activa Superb mop is available in three sizes (30, 40 and 60 cm) and cleans effectively with just water. It does not scratch the surface. Wash according to washing instructions for best durability (Activa Ready guarantee).

Product information	
Material	Microfiber
Use	Dry, damp and wet cleaning for most surfaces, both normal and heavily soiled surfaces
Color	Grey
Washing instructions	 <p>Lower the washing temperature to protect the environment.
