

ACTIVA REMOVE 1L

Effective polish and wax remover

- Low foaming
- Gentle on linoleum

Activa Remove is a professional polish remover with high efficiency intended for effective removal of polish when resetting floors. The product is developed to solve many layers of polish and for removal of polyurethane polish without damaging the substrate. Low foaming. Warning: Dilute before use. Do not use on painted surfaces or wooden floor. Test first on a small surface so that no color changes or other injuries occur. Immediately wipe off any spills and splashes plinths, linings and other painted surfaces.

Instructions for use:

- Lay out according to the dosing instructions on small surfaces so that it does not dry and let it work for 10-15 minutes. Scrub with single scrubber and suitable pad depending on floor material. Use scrubbing blocks in corners and along edges.
- Immediately soak up the dirty chemical solution with a wet suction.
- Drying with clean water is recommended.

Dosage:

- 1 liter to 9 liters of cold water, at tough dirt and waxes.
- 1 liter to 4 liters of cold water, on many layers or older high-speed polished floors.
- 1 liter to 2 liters of cold water, when removing polyurethane polish
